

30 January 2026

Notice of Price Change

Dear Trade Partner

Due to continued and unsustainable raw material cost increases and other increases in supply chain costs, it has become necessary for SAL to review our trade price list.

A price change will be effective from **Sunday 1 March 2026** and will apply to all orders dispatched after this date.

It is anticipated that the change will be an increase in the region of **5%** and will only be applied to **certain products**. Once finalised, a new electronic price file will be provided to you

We deeply appreciate your understanding and thank you for your continued support of SAL.

Regards

Michael Mills
