

23rd July 2026

To our values Supply Partner,

I wanted to let you know that due to ongoing increases in supply and input costs, we have made some **minor pricing adjustments to selected items** within our range.

We have absorbed a portion of these cost increases internally to minimise the impact; however, unfortunately, it has become necessary to adjust pricing on a small number of products to ensure we can continue to maintain service levels and product quality.

These changes apply only to selected items and have been kept as minimal as possible. **The updated pricing will commence from the 1st of July.**

If you would like to discuss any of the adjustments or need further detail, please feel free to reach out.

Thank you for your continued partnership and support.

Regards,
Michael Mills
