Re: Trade Price Increase Effective 1st December 2026

Dear Valued Customer,

Due to the continued rise and volatility in the logistic costs both domestically and internationally resulting in structural price increases from freight providers and continued increased fuel surcharges, along with manufacturing raw material increases since our last price adjustment Atkore Australia will be implementing a price adjustment to our Trade Price List.

Effective 1st December 2026 there will be an increase in Trade Prices as below:
Unistrut 5%
Flexicon 3.5%

We have made every effort to minimise the impact on our customers by maintaining our cost base wherever possible. However, the sustained market pressures have required us to align our pricing accordingly.

We greatly appreciate your understanding and continued support. Should you have any questions regarding this change, please do not hesitate to contact our team.

Regards,

Phillip Cowan
Atkore Country Manager
